

# Key Travel Mobile App

The Key Travel App is a simple and convenient way to stay on top of your trips whilst on the move. View all elements of your trip in one place, from itineraries, flight and hotel bookings to rail and car hire.

Available to download from iTunes, Google play & Windows Store

The app will also alert you in real time to any alterations or delays that may impact your journey, enabling you to avoid last minute surprises and make the most of your time.

Supported by a 24 hour emergency service, the app provides you with complete peace of mind that your travel plans are in safe hands.

## Functionality

- An easy access point to view all your itineraries in one place at any time
- Share your trips with friends, family and colleagues via facebook, email and SMS
- Save trip itineraries into your personal trip list and view past, current and future trips
- Includes important data such as terminal details, gate information, seat allocation, special meals, hotel reference numbers and room types, car hire pick up points and much more
- 24 hour trip support from our emergency team

## Useful Utilities

- Export trips to your calendar
- Currency calculator
- 5 day destination weather forecasts
- Interactive maps to view airport, hotel and car rental locations

## Flight

- Check-in via the airline's website from your mobile device
- Be notified of flight delays, cancellations, gate and terminal changes
- View:
  - Baggage allowance
  - Flight number
  - Seat map for applicable flights
  - Booked meals

## Ground Arrangements

- All products include route and destination points as well as travel dates
- Important details which are required as part of the trip e.g. reference details and hotel room types
- Contact details can also be found where applicable

All app content and notifications are dependent on information provided by the airlines and distributed by the Amadeus Global Distribution System (GDS)
